**TRIPPLE STAR**  
MARINE SERVICES L.L.C

## ABOUT US

Trippl Star Marine Services L.L.C specialize in providing comprehensive ship repair and industrial tank cleaning services in onshore and offshore. With a wealth of experience and commitment to excellence we ensure that the vessels remain optimal condition, meeting ship industry standards and regulations. Our dedicated and well experienced teams using advanced equipment's and machineries to complete the jobs on time perfectly. We are providing a complete turnkey solution for structural fabrication, piping, Blasting and painting in marine and industrial fields.

## VISION

Our vision is to become the leading marine shipping services company, setting the industry standard for excellence and innovation. We aim to be recognized globally for our commitment to quality, reliability, and environmental responsibility. By continually investing in our people, technology, and processes, we strive to exceed the expectations of our clients and contribute positively to the maritime industry's advancement. Through sustainable practices and a focus on continuous improvement, we aspire to enhance the safety, efficiency, and sustainability of marine vessel operations both onshore and offshore.

## MISSION

Our mission is to be the trusted partner for all marine vessel maintenance needs, offering superior services that prioritize safety, efficiency, and environmental stewardship. We are committed to exceeding client expectations through innovation, professionalism, and dedication to excellence in every aspect of our operations.

## INDUSTRIAL AND MARINE TANK CLEANING

Tripple Star Marine Services provides Industrial tank cleaning services, are specialized services that involve the cleaning and maintenance of various types of tanks used in industrial processes. These tanks can be found in industries such as petrochemical, oil and gas, chemical manufacturing, food and beverage, pharmaceuticals and water treatment among others. The cleaning of Industrial Tanks is crucial to ensure optimal performance, prevent contamination, and comply with safety and environmental regulations.

## INDUSTRIAL & MARINE INSULATION AND CLADDING

Tripple Star Marine services is the single point solutions for your all marine, Industrial insulation, and cladding works. We will supply, install and repair all kind of insulations such as Thermal insulations, Deck & Bulkhead insulations, fire protection insulations, pipeline insulations and cladding works. Subject to the requirements, type of application we will provide various insulations such as rock wool, glass fibre wool, ceramic fibre wool, polyurethane foam, Calcium silicate, ceramic insulation coatings etc.

## MARINE PIPING SERVICES

At Tripple Star Marine Services, we pride ourselves on delivering top-notch solutions for all your marine piping needs. Our comprehensive marine piping services cover the design, installation, maintenance, and repair of piping systems tailored to the unique demands of the maritime industry.

### Key Features:

**Expertise in BWTS Piping:** We specialize in Ballast Water Treatment System (BWTS) piping, ensuring your vessel meets international and regional regulations for ballast water management. Our team is well-versed in designing and installing systems that are not only compliant but also efficient in safeguarding marine ecosystems.

**Maintenance and Repairs:** Trust us to keep your marine piping in optimal condition. We offer routine maintenance and swift repair services, ensuring that your vessel operates at peak performance while minimizing downtime.

## SCAFFOLDING SERVICES

At Tripple Star Marine Services, we bring excellence to new heights with our specialized marine and industrial scaffolding services. With a focus on safety, efficiency, and quality, we provide cutting-edge solutions for your complex scaffolding needs in both marine and industrial settings.

### Types of Scaffolding

1. Tower Scaffolding
2. Hanging Scaffolding
3. Cantilever Scaffolding

## BLASTING & PAINTING

We Tripple Star Marine Services, serves in blasting and painting area in both marine, offshore, and Industrial fields. In Blasting we can remove rust, strip paints, bitumen, epoxy resin, abrasive, cladding, polished concrete, and many other coatings from almost any service leaving it ready to be re-coated. We are doing the conventional type blasting and hydro- blasting with UHP Machines up to 40K Psi.

High Pressure Washing and Cleaning of Cargo Holds, Tanks and Superstructure

High Pressure Water jetting on pipelines

Sand Blasting Sa 2, Sa 2.5 & Sa 3 Standards

Hydro Blasting to WJ1, WJ2 and WJ3 Standards

Painting of Hulls and Tanks

Power Tooling and Painting

MARINE SERVICES L.L.C

## VALVES OVERHAULING

Valve overhauling is crucial for maintaining the efficiency, safety, and reliability of industrial and marine systems. Regular maintenance and overhauling help extend the lifespan of valves and reduce the risk of unexpected failures that could lead to downtime and costly repairs. Additionally, it contributes to the overall safety and compliance of industrial and marine facilities by ensuring that valves operate within specified parameters.

Valve overhauling refers to the process of inspecting, repairing, and refurbishing valves in various industrial and marine systems. Valves are essential components in many applications, including oil and gas, petrochemical, power generation, water treatment, and more. Over time, valves may experience wear and tear, corrosion, or other issues that can affect their performance. Valve overhauling aims to restore these components to optimal working conditions.
